

# Drive operational efficiency.

You need an account management system that is **safe**, **reliable**, and **intuitive** to use. You can count on BRIDGE: a user-friendly online portal for all your transaction needs at Bankers' Bank of the West.

Through BRIDGE, your team can quickly complete a wide array of transactions and tasks without the need for specialized connections or software.

BRIDGE is built for dependability and security. Our platform is delivered via clustered enterprise servers across redundant internet backbone connections, and it includes multilayered authentication and robust risk management tools.

## Solutions Delivered Through BRIDGE:

- + ACH, cash letters, and domestic wires
- + Instant payments (RTP® and FedNow®)
- + Federal Funds
- + Settlement of FRB activity
- + Vault cash orders
- + International services at competitive exchange rates:
  - Wires
  - Foreign cash orders
  - Checks and drafts
  - Canadian check imaging

## Key Features

- + Account balance and real-time statements
- + Anomaly detection
- + OFAC screening
- + ACH risk management tools
- + Reporting tools
- + File import/export capabilities (SFTP)
- + Seven-year archiving of transaction activity for research and audits
